

PPIRS-SR NG Publish - 30 January 2016

The following CSRs are included in Release Version: 3.2.1

FEEDBACK S/N	PROGRAM	TITLE	CHANGE NARRATIVE
1501132	SR	Challenge Attachments Not Sent With Email	Include Attachments in the challenge emails when sent.
1501392	SR	Http Status 404 Error On Login	Some government users with PKI are receiving an 'http status 404' error message when they try to login to PPIRS-SR NG. This is directly related to their profile update date. Short term remedy is to clear the userid profile update date.
1501591	SR	Allow Service Designator Choice Within Agency	Allowed Challenge POC Owners/Managers the ability to not only allow users in their group access to the records in the Challenge Report but also assign Service Designators specific to their Agency/Service to the users. This augments CSR #1200498.
1301036	SR	Allow More Than One Challenge Per Line In PPIRS-SR	PPIRS-SR NG allows only one vendor challenge per line/record. Once challenged the challenge box reverts to n/a. Please allow one additional challenge per line/record so that if one is made the challenge box stays open. This will revert to n/a after the second challenge, though.
1501122	SR	Detail Report Positive Records Sort By Contract #	Sorted records in PPIRS-SR NG detail report positive records, alpha-numerically by contract number.
1500854	SR	Develop Daily Data Sweep / 14 Day Preview Period	Develop the capability to ingest the DLA, CDD & Quality data on a daily basis, recalculate delivery scores and make scores available to PPIRS-SR NG users. Also, the daily sweep capability must function pursuant to the 14 day preview period rule which requires that PPIRS-SR NG track each awardee CDD/Quality score for 14 days and release that score to system users in the event the score is not challenged by the supplier.
1501447	SR	Daily Sweep - Remove Pending Score Display	Pending classification display and the detailed screens for the pending classification should not be displayed in the contractor and government modules in PPIRS-SR NG. Only current classification data and the its related detailed screens should be displayed on both contractor and government modules in PPIRS-SR NG.
1501448	SR	Daily Sweep - Negative And Positive Display	In both the PPIRS-SR NG government and contractor modules the positive and negative record display (solicitation inquiry and summary report) in the detailed screens need be displayed correctly in accordance to the daily sweep and 14 day preview period requirements.
1501449	SR	Daily Sweep - Challenge Process	The challenge codes (on time challenge, late challenge, upheld, denied challenge codes. etc.) are logged in a challenge action history table to keep track of the actions taken over a period of time rather than to overwrite the challenge codes and to support the PPIRS-SR NG daily sweep and 14 day preview period requirement..
1501543	SR	Daily Sweep - Remove From Detailed Report	Removed the DLA Quality Record(s) and the Lab Test(s) from view on the PPIRS-SR NG "Detailed Reports".
1501565	SR	Add Contractor Summary View For Owners/Mgrs.	Added to Group Menu Items for Owners/Managers, "Contractor Summary View", this allows Owners and Managers the ability to choose a contractor by CAGE and view their Summary Report, and include a view of any challenge codes.
1501422	SR	PPIRS-SR NG Email Database Change	The PPIRS-SR NG database has implemented an email process tracking.
1400379	SR	Sort Challenge Report History By Challenge Date	PPIRS-SR NG challenge report history sorts by challenge date.
1501222	SR	PPIRS-SR NG Govt User Summary S/B Only Current View	Changed the PPIRS-SR NG regular government user summary report to displays only the current classifications.
1501092	SR	No Supply Code On Detailed Report PPIRS-SR NG	Include a supply code, FSC and NAICs on the detailed report in both the government or contractor views.
1400360	SR	Delete User In PPIRS-SR NG If Request Denied	If a user is Denied access on request to PPIRS-SR NG delete account on Submit. a statement is added in the Justification block to this effect: "Your request to PPIRS-SR NG has been denied and your account deleted. If you wish to reapply, please submit via the Request New Account process again."

1501369	SR	PPIRS-SR NG Login Page PKI Wording	On the PPIRS-SR NG login page, in the last sentence under PKI information the word "encouraged" has been changed to "required".
1501381	SR	Change PPIRS-SR NG Background Color	Removed the dark blue background color and replaced with something neutral (gray best) in PPIRS-SR NG.
1501403	SR	Add Technical Support Link To App Pages In PPIRS-SR NG	Added a technical support link to each application page in PPIRS-SR NG. Tech support email should be to webptsmh@navy.mil
1600011	SR	Eliminate DLA, Quality And Lab Test Repots In The "Data Report Search" Report	Eliminated the DLA, Quality and Lab Test Reports in the "Data Report Search" report
1600008	SR	Change The Microsoft Excel To Spreadsheet	Changed the "Microsoft Excel" to spreadsheet
1501133	SR	Item Risk: Misc. Display Changes	1. Changed title of "reason" box to "reason(s)" 2. For items displaying a criticality code, inserted the word "criticality" before the word "code".
1501134	SR	Price Risk: Asterisk For No Quality Data	When a vendor has no quality records in PPIRS-SR NG, display an asterisk "*" instead of the current neutral score of "50" - overall supplier score will also be an asterisk - change "(*) no data is available" to "(*) no record" in Summary Risk Analysis report, pdf and wherever applicable.
1501287	SR	Admin: Tiered Exclusion Management	Add admin-only page to adjust values used in outlier exclusion by new escalation process. These values should only be modified by PPIRS-SR NG program office personnel.
1501383	SR	Supplier Risk: Quality And Delivery Sample Data	Submit a cage and return the following: The cage's overall delivery score for all FSC's. A list of FSC's with an assessment of whether that cage's quality score is in the top, middle or bottom third.
1501426	SR	Risk Analysis: PPIRS-SR NG In PDF Header	Changed pdf header to read "Past Performance Information Retrieval System - Statistical Reporting Next Generation (PPIRS-SR NG)"
1501462	SR	Price Risk: Add HPP Confidence To NG_Niin_HPP	1. Changed the price engine to calculate and store this in a new column 2. Modified the application to retrieve this value (rather than calculate it for each risk analysis).
