SECTION 841 IDENTIFICATIONS LIST

The Vendor Threat Mitigation (VTM) Module on SPRS provides acquisition professionals with visibility of vendor threat vetting outcomes under AFRICOM and CENTCOM VTM programs. The Section 841 list is a compilation of vendors and related entities that have been identified under the FY2015 NDAA Section 841. Please contact the corresponding vendor vetting program before pursuing business with these entities.

If an entity has been excluded by a Head of Contracting Activity (HCA) in the System for Award Management (SAM), the "SAM Exclusion" (Y/N) will have a 'Y' value. Contracting Officers should check with their respective HCA and requirement owner before using any entity with an 'N' value in order to assess and mitigate risk. If you would like to view corresponding Section 841 memos, please visit the VTM Intelink website (<https://intelshare.intelink.gov/sites/atc/vtm/SitePages/Home.aspx>), or contact the VTM Mailbox (osd.mc-alex.ousd-atl.mbx.vtm@mail.mil).
